Cleaning Method

Before cleaning, you must make sure that you have unplugged the power plug.

Do not use insecticides or other volatile chemicals on the projector or lens. Do not use rubber or vinyl products to touch the projector. This can damage or cause coating peel off.

Clean the Projector

Wipe with a soft dry cotton cloth. Use a soft cloth dipped in a diluted neutral detergent to wipe it, then with a dry cloth. If you use chemical fiber cloth, please follow the precautions.

Do not use thinner, benzene or other solvents to avoid quality degradation or peeling of the spray coating.

When cleaning the dirt, you can insert a brush in the front of the vacuum cleaner, avoid directly use the vacuum cleaner without any connectors or the nozzle, avoid scratches.

Dust cleaning of lens

Use the same method to clean the camera lens, use the professional hair dryer for the camera or the cleaning paper for the glasses lens. Be careful not to scratch the lens.

Dust cleaning at suction and outlet

The dust in the air inlet and outlet prevents ventilation, which will increase the internal temperature and cause malfunctions. Cleaning guidelines: at least clean once use every 10,000 hours.

Turn off the projector, disconnect the power.

Clean the exterior with an electric vacuum cleaner, and install a brush head adapter on the vacuum cleaner. Please be careful not to use a vacuum cleaner without an adapter or brush head.

Thanks for reading!

Enjoy your time with this projector!
